DETAILED ACTION

Election/Restrictions

1. Claims 3, 4, 7, 12-16 and 19-28 remain withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on 9/21/2006.

Information Disclosure Statement

2. The information disclosure statement (IDS) submitted on 11/13/2006 was filed in compliance with the provisions of 37 CFR 1.97. Accordingly, the information disclosure statement is being considered by the examiner.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 17 and 18 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

5. Claim 17 recites the limitation "the endoscope" in line 7 of the claim. There is insufficient antecedent basis for this limitation in the claim since all that was previously defined was an "endoscopic cannula", which is merely a tube capable of carrying an endoscope. Since claim 18 depends from claim 17, it is rendered indefinite by its association.

Claim Rejections - 35 USC § 102

6. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

7. Claims 17 and 18 are rejected under 35 U.S.C. 102(b) as being anticipated by Starksen (US 5,571,161). Starksen discloses an apparatus 10 for performing a surgical procedure on the heart of a patient through a working cavity in tissue between the heart and an entry incision, as shown in figure 8. The tubular body 12 is considered by the examiner to be an “endoscopic cannula” since it is a tube with a lumen that is capable of carrying an endoscope, which is not distinctly claimed. Furthermore, connector 26 is supported by the endoscopic cannula and is considered to be a suction attachment since a pump could be connected to the connector to supply suction through the tubular body 12 to a contact site of the heart. This would inherently be able to be carried out through visualization of an endoscope, as this is functional language that does not affect the structure of the apparatus. Finally, the tubular body also acts as a support channel for cardiac lead E, such that the channel includes two coaxial mating segments 40 and 12, as shown in figure 3. The segments have slots 36 and 38 extending between distal and proximal ends for selective configuration as a closed channel, as shown in figure 1, and as a channel open longitudinally between the ends for releasing a cardiac lead laterally from the channel (see figure 3 and 8D and Col. 6, lines 1-9).

Response to Arguments

8. Applicant's arguments with respect to claims 17 and 18 have been considered but are moot in view of the new ground(s) of rejection, necessitated by applicant's amendment.

Conclusion

9. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
